

## Meet the Trojans and Trojanettes

## Camp Mission

We feel our participants will both enjoy and benefit from this unique approach to a basketball camp. It is our goal to provide the best camp experience possible for each and every camper. We think we accommodate the little things much better than the average camp with our hands-on approach to each camper and our dedicated, enthusiastic staff. We will stress both offensive and defensive fundamentals at all times with a special emphasis on shooting the basketball correctly. Positive attitude and good work habits are reinforced while always maintaining a high level of fun. We feel that it is the ultimate camp experience!
