

**Geisinger nurses receive PPE (Personal Protective Equipment) from Greater Nanticoke Area School District**

Prior to the outbreak of the COVID – 19 virus, the Greater Nanticoke Area School District secured extra PPE to protect our cleaning and maintenance staff. Due to the recent school shutdown, it became evident that we wouldn't use it so we donated it to Geisinger Hospital in Plains Township. The hospital was experiencing a shortage of PPE like most hospitals across the country. The picture shows the nurses at the hospital receiving the PPE.
